What CUBIX Doing?

Unlimited Fun, Different Sports to Play & Earning opportunities

Cubix is an NFT fantasy sports Platform. The first to offer two different playing modes. Play to earn and cater to your style of play, whether it's the standard for 1:1 matches, or you want to engage in a larger tournament style gameplay.

The CUBIX's sports platform is meant to change the way Fantasy sports currently working. The Cubix will be more transparent and decentralized than all the current centralized sports platform. The Cubix ecosystem comprises several critical components that work together to support each other, and collectively make up an enjoyable and a potentially highly profitable experience for players.

What is NFT?

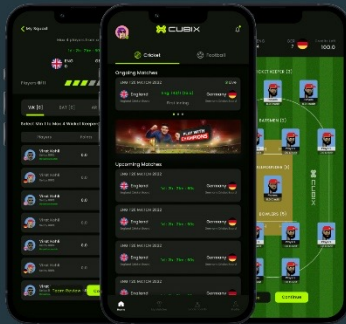

NFTs are unique digital assets with blockchain-managed ownership.

NFT, or Non-Fungible Token, is like a digital certificate of ownership for unique items in the gaming world. It could be rare in-game items, character skins, or even digital land. Each NFT is one-of-a-kind and stored securely on a blockchain, ensuring its authenticity and ownership. This technology enables gamers to buy, sell, and trade their digital assets with confidence, creating new opportunities in the gaming industry.

CUBIX NFT Use Cases

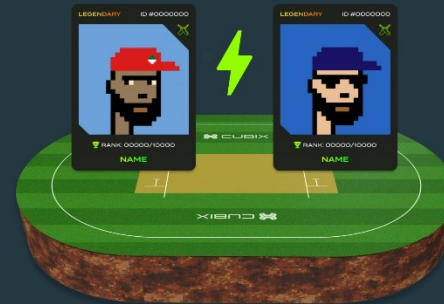

CUBIX's NFTs are very unique and created for multiple real use cases.

Why CUBIX's NFT?

CUBIX is creating multiple real utilities, and team also working on new creative games, more utilities generate more opportunity of earning!

Rent your NFT

Cubix now lets card owners rent out their cards to earn money. You set your own rental prices and keep control of your card. Everything's done with smart contracts, so it's easy to rent your card for a month or longer.

Royalties

The first owner, who makes the NFT, gets 0.5% of every sale of that NFT card, forever. So, no matter how many times it's sold, they keep getting that 0.5% cut each time.

Auction your NFT

The card owner can set up and run an auction for a specific NFT card.

Play to earn Mini Games

Cubix plans to release fun mini-games where you can earn rewards by playing. Some will use Virtual and Augmented Reality made by top creators. Only NFT holders can play these games.

Boosting Value

When you use NFT cards in fantasy sports or mini-games, they earn points. The more points they get, the more powers they gain. These powers make them better at mini-games, which makes NFTs played longer more valuable.
